

Industry-leading LEV Extraction Arms

The synergy of innovation and safety

As an installer of LEV extraction arm systems, The Fume Cupboard Company is your trusted partner for seamless installation and reliable maintenance services, catering for wall, bench, and ceiling-mounted fume extraction arms.

Our commitment extends beyond installation. We curate a diverse selection of products tailored to various work environments where harmful dust and fumes pose a threat. Our extraction arms are meticulously designed to establish localized extraction, directly linked to operational processes. This strategic approach ensures the prompt removal of hazardous vapours and substances, minimising their dispersion into the surrounding space.

Elevate workplace safety with our collection of Isoflow Extraction Arms, where the synergy of innovation and safety takes centre stage.

Why Choose Our LEV Extraction Arms?

Superior Performance: Our extraction arms are engineered to deliver unmatched performance, efficiently capturing contaminants before they disperse into the air. Experience peace of mind knowing that your workspace is safeguarded against harmful particles.

Flexibility and Manoeuvrability: With fully adjustable arms, you have the flexibility to position the extraction point exactly where it's needed. Whether you're working on a small-scale project or a large industrial application, our arms adapt to your workspace requirements with ease.

Enhanced Productivity: By removing airborne pollutants, our extraction arms create a safer and more comfortable working environment, boosting productivity and employee morale. Say goodbye to distractions caused by fumes and dust, and hello to increased efficiency.

Durability and Reliability: Built to withstand the rigors of industrial use, our extraction arms are constructed from high-quality materials, ensuring long-lasting durability

and reliability. Invest in equipment that stands the test of time and delivers consistent performance day in and day out.

Compliance and Peace of Mind: Our LEV extraction arms are designed to meet or exceed industry regulations and safety standards, providing you with peace of mind knowing that you're prioritizing the health and safety of your workforce.

Don't let hazardous fumes and airborne particles compromise the safety and productivity of your workspace any longer. Upgrade to our cutting-edge LEV extraction arms today and experience the difference first hand.
