

Isoflow Bespoke Extraction

Elevate your Lab experience

Tailored, designed, and crafted to meet your specific needs. Isoflow presents custom-made fabricated hoods, constructed from high-quality materials.

These specialized hoods are strategically positioned within your workspace, serving as an integral component in conjunction with our ductwork systems. Their primary function is to efficiently channel and control fumes, allowing for optimal protection.

Our bespoke hoods excel in versatility. Extracting fumes directly into the atmosphere or facilitating filtration through a dedicated unit, these hoods play a crucial role in maintaining a clean and safe working environment. When paired with our extraction systems, they ensure the effective removal of contaminants, contributing to enhanced overall workplace air quality?
